

At HuQAS, we believe quality in the laboratory is not just about compliance; it is about protecting patients, building trust, and raising the standard of healthcare across Africa. For over two decades, we have been at the forefront of proficiency testing, and along the way we saw something others often overlook: laboratory teams needed more than just results they needed growth, confidence, and continuous learning.

That is why we designed our training to go beyond theory. Every session is built on real-world laboratory challenges and guided by ISO 15189:2022 principles. We do not just train; we empower laboratory professionals' pathologists, managers, scientists, and technologists to see their role in patient safety more clearly, to solve problems more effectively, and to lead change more confidently.

What sets us apart?

- ➔ Practice-driven learning tied directly to EQA performance.
- ➔ Immediate application skills you can use in your lab tomorrow.
- ➔ A culture of quality that turns training into measurable impact for patients.

HuQAS training is not just another workshop it is a movement for safer, stronger, and smarter laboratories.

Training Courses.	Days & Slots.	Venue.	Dates.
WEBINAR 1: Global QC Trends, African Realities: How Far Have We Come?	45 Min	Virtual Session	February 26 th , 2026
Mycobacterium Acid Fast Bacilli Refresher Training USD 500 @person, 2 people @USD 450, 3 people @ 400 USD	3 Days; 10 slots	HuQAS Training Centre, Nairobi	March 25 th - 27 th , 2026
WORKSHOP: Navigating Quality Management in Medical Laboratories: Process Control and Effective Utilization of HuQAS EQA.	1 Day: 50 slots	Rwanda, Kigali	April 2 nd , 2026
WEBINAR: Microbiology Quality Control and Standards.	45 Min	Virtual Session	April 30 th 2026
Biosafety & Biosecurity Training USD 400 @person, 2 people @USD 350, 3 people @ 300 USD	3 Days; 25 slots	HuQAS Training Centre, Nairobi	June 10 th to 12 th 2026
WEBINAR 2: EQA Webinar Series	45 Min	Virtual Sessions	July 20 th – 1 st August 2026.
25 th Annual HuQAS Scientific Conference USD 80 Non - HuQAS Participants; USD 70 HuQAS Participants.	2 days;	To Be Communicated	August 26 th to 28 th 2026
Malaria Microscopy Refresher Training USD 500 @person, 2 people @USD 450, 3 people @ 400 USD	3 Days; 10 slots	HuQAS Training Centre, Nairobi	September 09 th to 11 th 2026
ISO 15189:2022 Implementation Training USD 400 @person, 2 people @USD 350, 3 people @ 350 USD	3 Days; 25 slots	HuQAS Training Centre, Nairobi	November 11 th to 13 th 2026
WEBINAR 3: Quality Control Data Management in Clinical Microbiology.	45 Min	Virtual Session	November 19 th 2026.

Peripheral Blood Film Training USD 500 @person, 2 people @USD 450, 3 people @ 400 USD	3 Days; 10 slots	HuQAS Training Centre, Nairobi	December 2 rd to 4 th 2026

HuQAS also offers on-site trainings, CMEs, and Virtual training on request, which also includes:

→ Advanced Root Cause Analysis & CAPA Training.	→ Good Clinical Lab Practice Training.
→ Biosafety & Biosecurity Training.	→ ISO 15189:2022 Implementation for Medical Laboratories.
→ ISO 15189 Internal Auditor Training.	→ Method Validation, Verification, and Uncertainty of Measurement.
→ ISO / IEC 17043 Proficiency Testing Provider (PTP) Course.	→ Internal Audit for Proficiency Testing Laboratories based on ISO 17043.
→ ISO / IEC 13528:2015 Awareness Training Course.	→ AFB Microscopy.
→ Advanced Andrology and Introduction to Embryology.	→ Fertility Training for Assisted Reproduction.
→ Peripheral Blood Film Training.	→ Improving The Corrective Action Process.
→ Validating and Verifying Your Laboratory Methods: A Case Study Approach.	→ Risk Management for Medical Laboratories Implementing ISO 15189.
